RESTful APIs, Web Security, Debugging, Testing, Scalable Architecture

Tools

Git, GitHub, Project Management, CI/CD

Soft Skills

Problem-Solving, Teamwork, Communication, Time Management, Work Ethic, Continuous Learning

Work Experience

Full-stack Web Developer (Independent Project)

Independent

Nov 2025 – Present

Personal Portfolio Project

- Architected a high-performance personal portfolio site using React and Vite to showcase professional achievements and technical skills.
- Implemented a mobile-first, responsive design using Tailwind CSS, ensuring cross-device compatibility and a modern UI/UX.
- Optimized build performance and asset delivery by leveraging Vite's fast bundling and Vercel's global edge network for deployment.
- Streamlined user experience with smooth transitions and modular components to maintain a clean, maintainable codebase.

TasteBoat

- Engineered a high-performance, decoupled food discovery platform using React.js, Vite.js, TypeScript, TailwindCSS, and Headless Laravel.
- Developed a centralized RESTful API to manage complex menu hierarchies, secure user authentication.
- Optimized frontend performance and SEO by implementing Server-Side Rendering (SSR) and responsive design principles with Tailwind CSS.
- Orchestrated a modern cloud-native CI/CD workflow, deploying the frontend to Vercel and the backend to Laravel Cloud for maximum scalability.
- Designed and managed a robust MySQL database schema tailored for high-frequency data retrieval and transaction integrity.

Full-stack Web Developer (Freelance)

HEAVEN MELODY Co.Ltd, Myanmar

Oct 2020 – Jul 2022

E-commerce Project:

- Diagnosed and resolved critical bugs and system errors to improve platform stability
- Migrated product and media assets to a new image server, optimizing load times and storage efficiency

Job Portal Project:

- Developed and implemented complete backend and frontend features for core modules
- Ensured smooth user experience through responsive design and clean, maintainable code
- Built admin-side management tools for monitoring user activity

Full-stack Web Developer (Mid-Level)

Za Information Technology Co., Ltd., Myanmar

Oct 2019 – Oct 2020

- Designed, developed, and maintained multiple internal and public-facing websites for logistics operations
- Built custom dashboards for tracking shipments and delivery status in real time
- Integrated third-party APIs for logistics automation, including mapping, tracking, and notifications
- Developed secure user authentication systems and role-based access control
- Optimized site performance and fixed technical issues to ensure system stability

Full-stack Web Developer (Freelance)

Melo Music App, Myanmar

Aug 2019 – Oct 2019

- Developed and maintained a music streaming web application using Laravel and Vue.js
- Implemented and optimized complex features including custom music player
- Integrated Apple In-App Purchases and developed flexible subscription plan logic
- Built and optimized RESTful APIs for seamless mobile integration

Full-stack Web Developer

Mega Myanmar Links, Myanmar

May 2016 – Aug 2019

- Used Laravel, PHP, Javascript (Vue.js), SQL (MySQL), NoSQL (Redis, MongoDB), CSS (Bootstrap) and HTML
- Increased website performance by optimizing front-end and back-end code
- Applied responsive design principles to ensure consistent display across devices
- Created easy-to-use APIs for third-party integrations
- Built reusable code libraries and database structures
